

WORKSHOP

Introduction to Graphic Facilitation

People think in pictures because a big part of our brain is wired to process visual information. Quick, think of a pink elephant! Easy, right?

Learn how to add interest and fun by including pictures in your training sessions and business meetings. Participants will be more engaged and retention will increase.

- Write like a pro on a flip chart
- Create a library of icons that you can use every day
- R4,000 per learner - including a starter stationery pack
- Be amazed at what you'll be able to create by day end!

Icon Library

Stationery Pack

Visual Agenda

Be amazed!

3STICKMEN

Only 8 learners can be accommodated per workshop to ensure that you receive personal attention.
